

Access Covers & Frames

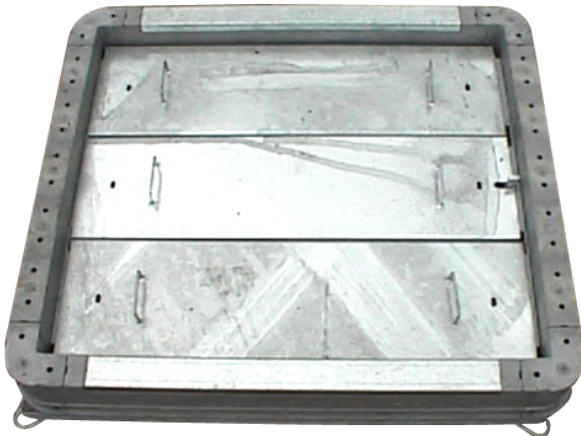

Security Cover

Design Features

Radius Security covers provide excellent protection for your network. Security Covers are designed to prevent unauthorised access to the chamber. They are installed underneath the manhole cover and are lockable.

- Lockable with padlock
- Suitable for all types of Radius chambers
- Minimal obstruction to clear opening when the cover is removed
- Finish: Hot dipped galvanised to BS EN ISO 1461 as standard

FEATURES

- Lightweight - no lifting equipment
- User friendly simple construction
- available in different sizes
