Matrix® In-Line Tube Closure

Description

In-Line Matrix® is a high quality protective closure offering fast and easy in-line connectivity to the distribution route.

Designed for use with microduct systems In-Line Matrix® closure offers a protective enclosure for straight duct connections.

The In-Line Matrix® closure provides high network flexibility, upgradeability and uninterrupted fibre/cable connectivity with no need for splicing.

Assembly

Very simple with no tools required. The assembly is supplied with all components in place.

The In-Line Matrix® closure consists of two hinged halves which should be fitted around the connection area. The closure is then sealed by manually tightening the retrofittable endcaps.

Technical

Dimensions	406 x 118 x 83mm
Weight	0.52kg for standard unit
Port sizes	2 x 50mm or 2 x 40mm or 2 x 32mm
Parts	2 x body halves with central joint
	2 x retrofittable end caps
	4 x grip rings
	2 x integral seals

✓ IP54 rated

BENEFITS

- IP Rating IP54
- Fast & easy assembly
- Tool free
- For direct burial or use in manholes
- Lightweight & robust
- Retrofittable, can be installed any time, any place
- Reusable
- Self-locating grip rings
