Mobra Bracket Drop-In

Description

A retrofittable drop-in Mobra bracket for use in QuadBox® and RadBox2® chamber systems.

Easily adjustable brackets to position the dome closure anywhere within the chamber for ease of access or avoiding existing infrastructure.

Universal mounting bracket enables the fitment of a large range of enclosures, other variations available upon request.

Features

- Retrofittable
- Drop-In
- Fully adjustable x - y position of the dome closure
- Wide range of enclosure mounting brackets are available
- All galvanised construction for long service life
- Lockable in the vertical position, for ease of access during maintenance
- 2 bolt installation, (no drilling required)
- Once installed, bracket locks in place to the chamber wall, preventing accidental removal

Drop in Mobra Kits (for QuadBox® and RadBox2® only)
